Gurugram, Haryana, India -122009

BRIEF SUMMARY

A versatile professional with B.Tech. in Computer Science from SRM Chennai, having a passion for data-driven problem solving, building scalable web applications, software testing, business development and business operation.

SKILLS

Java, JavaScript, Salesforce, NodeJS, MySQL, HTML, CSS, React.js, Power BI, Business Development, Content Development, Python, Software Testing

WORK EXPERIENCE

Enco Engineers Combine Pvt. Ltd. Feb 2026-Present

Engineer

Currently handling the role of ***Process Coordinator*** in Chairman's office, my responsibilities include:

- Share manpower and DT punch across all plants
- Follow-ups for checklist and KPI tasks
- Analyze existing workflows and suggest improvements for better productivity and efficiency
- Follow-ups for updating the dashboards of the plant-heads and managers

Earlier, I handled the role of ***Trainee Software Developer*** for two months in Feb-March, 2026, where my responsibilities were:

- Develop Employee Management System using PHP and MySQL
- Perform CRUD operations on **SANCHALAN** (ENCO's ERP software) using WinSCP and PuTTY
- Writing API in PHP and reading the output of API's in console
- Collaborated with team members to maintain and enhance application functionality.
